Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the <u>European Pillar of Social Rights</u> and supports the goals of the <u>Green Deal</u> and the <u>digital</u> transformation, as set out in the Commission communication "A strong Social Europe for Just Transitions".

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up** skilling and reskilling of people of working age, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

Select

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Would you like to:

- Sign the Pact for Skills charter and make a specific commitment for your organisation
- Register a new partnership under the Pact as the coordinator
- Subscribe to the <u>Pact newsletter</u> and to receive information on the Pact activities (please note that members of the Pact and members of existing large scale and regional partnerships are automatically registered to the newsletter and other communication activities)
- Learn how to modify an existing application and/or change your communication preferences
- Input a contact relevant to the Pact (limited to the Pact for Skills Support Services Team)
